OFFICE OF LEGISLATIVE COUNSEL

Thursday - 5 October 1967

25X1 1. [] In response to the request of Mr. John R. Blandford of last evening, I advised that the North Vietnamese mounted a major resupply effort during the TET bombing pause of 8-11 February 1967. The figure of 25,000 tons has been noted in the press and apparently released by the military. The DIA official estimates have been just over 20,000 tons and no estimate has been released concerning tonnage moving into North Vietnam. Mr. Blandford thanked me for the assistance and noted that he thought he would use the figure over 20,000 tons.

25X1 2. [] Attempted to meet with Representative Alvin E. O'Konski (R., Wis.) regarding the Director's letter to the Chairman concerning S. 1035, but was unable to meet with him. Mr. O'Konski has left the city and will not be returning until the first of the week. Tentative arrangements were made with his staff to meet with him on Monday or Tuesday after his return.

25X1 3. [] Met with Mrs. Phyllis Seymour in response to her call and received from her the committee schedule for briefings for the coming week. I also reviewed with her procedures for control of the transcript which had been previously developed with the Armed Services Committee.

25X1 4. [] Talked to Mr. J.S. Fredman, Capitol Reporting Company, Capitol Reporter for Armed Services Committee, and confirmed arrangements with him for Agency control of the tapes and transcript of the Director's briefing on Monday, 9 October, of the Hardy Subcommittee.
